STATINTL

1. I have approved of an Administrative Plan for Project [REDACTED] which, among other things, states that "such detailed accountings as may be obtained shall be maintained in the field and made available for such inspection locally as the Director of Central Intelligence may direct."

2. It is my understanding that it is not the intent to permanently waive audit of this Project but that circumstances at any particular time may make it undesirable to conduct an audit. Please take this into consideration, and if you desire to make an audit at any time check the feasibility of doing so with me before proceeding.
